

## **Sister Dora Christian – 50 Years**

“My various ministries as a Sister of Saint Joseph have put me in touch with many diverse audiences,” said Sister Dora Christian.

“I began at Nazareth Hall and then spent 30 years at Nazareth Academy – first as a science teacher, then as science department chairperson and finally as registrar. The next 13 years I served as Nutrition Program Manager at Cornell Cooperative Extension of Monroe County where I managed all aspects of the Nutrition Education Program for county residents.

“When I left CCE-Monroe I became an activity leader at Aaron Manor Rehabilitation and Continuing Care Center. My most recent ministry is the return to a school setting at The Aquinas Institute where I presently serve as the Community Service Coordinator.

“I have been blessed and enriched by all those persons with whom I have journeyed. Working with these diverse groups – students, families, the very poor, the elderly, many Monroe County residents – has been a privilege. The energy and enthusiasm generated by each of them has been an inspiration for me.”
